

SOFTWARE DEVELOPER, GRAPHIC DESIGNER

SUMMARY

Software developer with graphic design background pursuing a career as part of a development team. Resourceful problem-solver and quick learner with experience developing applications on the front and back end. Strong advocate of highly organized and reusable code.

RECENT PROJECTS

Members Portal, **Designer/Developer** [8/16 - 9/16]

Worked on a team of three to design and develop a portal for members of a city organization to make professional connections with other members and have an invaluable resource for staffing (per-project or permanent) needs. Used a Twitter Bootstrap foundation with custom CSS, JavaScript, jQuery and AJAX for the front end and PHP (Laravel framework) with Sequel Pro to build the back end.

Cruddit, **Designer/Developer** [8/16]

Executed design and development of a Reddit parody site using Twitter Bootstrap with custom CSS, HTML and PHP (Laravel framework). Logged-in users can browse existing posts and cast a vote or create/edit their own posts.

Fantasy Costco, **Designer/Developer** [8/16]

Collaborated with two classmates to produce a prototype for a fantasy e-commerce site. Wrote custom CSS with no frameworks and used vanilla PHP to build an admin portal to upload, edit and delete products for the site.

WORK EXPERIENCE

Toolbox Studios, **Graphic Designer** [10/15 - 03/16]

- Executed design of a variety of brand-aligned print and digital pieces in collaboration with creative team
- Identified target demographics, conducted marketing research for new branding, created mood boards and made stylistic and conceptual recommendations for collateral

SPFM, LP, **Graphic Designer** [12/13 - 10/15]

- Designed brand cohesive digital and print projects; managed project flow and communications between departments
- Assisted Web Developer in front end web development using Drupal and Espresso for Mac and with basic back end database operations involving product SKUs
- Organized and managed photo shoots and post production

Sweb Development, **Graphic Design Intern** [09/12 - 12/13]

- Collaborated with design team to produce concepts for print and digital media as requested by clients
- Tested and reported bugs in mobile applications and websites
- Sliced mobile application designs using Slicy for Mac
